Your pet will be given a pre-anaesthetic blood screen (\$95.00) prior to surgery (to check your pet's kidneys and liver are working properly and thereby minimise anaesthetic risks)	<b>Yes</b>	<b>No</b>
Your pet will receive IV fluids during surgery (\$60.00) (to maintain blood pressure and promote a smoother recovery)	<b>Yes</b>	<b>No</b>
Your pet will be sent home with an Elizabethan collar (\$5-35) (to minimise licking and chewing at wounds and sutures)	<b>Yes</b>	<b>No</b>

**PAYMENT IS REQUIRED IN FULL ON DISCHARGE OF PATIENT**

How will you be paying for this procedure?                      **Cash**                      **Eftpos/CC**

**I authorise University Avenue Veterinary Hospital to provide treatment including suitable anaesthetic and surgery to the animal described above, and accept responsibility for the costs incurred. I am aware that no anaesthetic or surgical procedure is without risk, and I understand that unforeseen conditions may arise during the course of my animal's treatment, immediately thereafter, or after they have been discharged. I understand this may necessitate treatments, including surgical procedures, different from or additional to those planned. I authorise such procedures as may be deemed necessary in the exercise of professional judgement. Every effort will be made to contact me should such a situation arise while my animal is still within the hospital's care.**
