Regionally Renowned Advanced Skin Analysis

Visia and Aphrodite Skin Analysis From \$89

At Just Magic we have built a reputation on being Experts in skin. We don't just focus on what's there, but how it came to be there!

We offer a Full Computer and Digital Diagnostic Skin Analysis System utilizing specialized Skin Analysis Camera Equipment. These medically proven skin imaging systems have the technology to see up to 2mm below your skin to generate images of blood supply, melanin and sun damage, wrinkles, bacteria, texture and even pore size! In addition our therapists are some of the most highly trained in Australia.

One of our therapist will analyse your skin, then in consultation with you, recommend a programme of treatments and home care products selected specifically for your skin's requirements. You will take home with you your personalized script so that you know how to care for your skin at home to achieve amazing results.

Consultations

Skin consultations are performed with all facial therapies to give your skin a health check-up and discuss any of your concerns. If you would like to talk about a skin product, makeup colour consult or a particular treatment please make an appointment for a skin consultation with our great staff.

Just Magic is Mackay's #1 salon for advice on your skin condition and concerns.

“ Everyone can have beautiful skin, if they know how to take care of it.

Cutting Edge Technology for Skin Management

Skin Inject™ From \$355

Skin Inject™ is an exciting new treatment which offers a safe and effective treatment for retaining youth, treating acne scars, wrinkles, pigmentation and enlarged pores.

When the ultra-fine skin needling roller passes over your skin it triggers your skin's natural healing response, which stimulates new collagen production resulting in a firmer, tighter looking skin with diminished lines, wrinkles and more clarity. Skin needling is a valuable treatment because the underlying action of this treatment is stimulating a natural reaction in your skin to produce more of its own collagen.

Simply put, it is laying down new foundations which helps improve the surface skin appearance, giving it a natural, youthful glow.

IPL - Intense Pulsed Light

P.O.A

Intense Pulsed Light Therapy (IPL) involves very intense, short bursts of light being selectively applied to the skin. This light is absorbed more readily in darker colours of the skin such as hair follicles, melanin (pigmentation) and blood (visible vascular capillaries).

The absorbed light creates heat, which in turn prevents regrowth of hair or the stimulation of skin cells to regenerate.

IPL can produce remarkable results after just a few treatments.

The stimulation of the deeper layers of the skin encourages your skin to shed damaged, dead and discoloured surfaced layers, revealing a fresh, new and younger looking skin.

Because every person is different and will react differently to the pulses of light, it is imperative to have a qualified operator assess your skin prior to your treatments. A full detailed consultation and test patch is carried out prior to any professional treatments.

We offer great packages for:

- Hair Reduction
- Sun Damage and Pigmentation
- Red Skin and Facial Veins
- Rejuvenation
- Acne
- Scarring

DMK Results Orientated Therapies

DMK Pro-Alpha Six Layer Peel

A resurfacing procedure for those wanting dramatic results

Pro Alpha Six Layer Peel is an integrative aesthetic approach to skin restoration. Not everyone wants to commit to cosmetic surgery when signs of ageing become apparent. Many patients prefer to start with a less invasive procedure such as the Pro Alpha Six Layer Peel. This professionally applied treatment revises the old damaged skin and works to re-establish structural integrity. Pro Alpha Six Layer Peel is like a skin renovation. The Pro Alpha Six-Layer Peel is an exclusive blend of AHAs and BHAs, applied systematically in layers. The strength of the formulation is tailored by your therapist to suit your skin colour, texture, sensitivity and condition. The procedure takes 14 days.

While not recommended for fine or fragile skin, the peel can be applied to thick skin, uneven textured skin, wrinkles, fine lines, pigmentation, sun damage and scarring. Follow with the Muscle Banding Treatment for optimal results.

DMK RP Therapy

Reconstruct healthy skin

A youthful, healthy appearance is important in modern society. Many people feel a sense of anxiety about visual signs of ageing and are seeking advice and solutions. RP is based on the presentation of healthy and

attractive skin on both the body and face. RP revises the skin by looking at the underlying cause of premature ageing making it ideal for conditions such as sun-damaged skin. RP aims to revise the processes that have developed as a result of the sun or environmental damage. RP is an industry proven way of dealing with sun damage, premature ageing, and loose sagging and wrinkled skin. RP is focused on improving confidence and happiness.

DMK Muscle Banding

From \$180

Age management

Muscle banding is about acting in advance to prevent the onset of ageing. The DMK muscle banding program not only lifts and firms the skin; it can also help to restore optimal skin function which is the key to youthful, healthy, firmer skin. Fight against the decline that causes ageing.

DMK Signature Facial Therapy

From \$210

Restore skin to its peak condition

Where some cosmetic facial treatments may only act on the surface of the skin, DMK Signature Facial Therapy works *with* your skin. Starting with a deep cleanse, a specific removal system is chosen to suit your particular skin condition to ensure optimal results. The specialised DMK Enzyme Therapy mask is applied to strengthen the structural integrity of your skin to create a healthy environment for cells to live and thrive in. Add in a wonderful foot massage and you are feeling truly cared for... This amazing Therapy exercises your facial muscles and works leaving your skin firm and in tip-top condition.

DMK Liquid Laser

From \$155

A non-invasive treatment of wrinkles or fragile skin

Liquid Laser is a light, non-invasive treatment that focuses on strengthening, firming and rebuilding the skin. Great for fine lines, superficial wrinkles, fragile, weak or dehydrated skin.

DMK Hydradermaze

From \$260

Clear the way for acne free skin

DMK A-Lift (AESTHETIC LIFT)

Skin fitness program

DMK A-Lift is a 12 week program designed to revise the signs of ageing and the health of your skin. By removing redundant skin cells and tightening facial muscles, the DMK A-Lift Treatment works by stimulating the underlying structures of the skin. It gives the face its own workout similar to how you would tone and tighten the body with exercise.

The DMK Muscle Banding technique is used in the A-Lift to tighten and tone the skin, restoring a healthy youthful appearance. It works to reduce redness and unsightly capillaries in the skin and provides a vibrant appearance.

Performed weekly over a 12 week period, the A-Lift uses transdermally delivered formulations that work with the skin's functions to remind it to function as it did when it was young.

DMK pH Variation Skin Treatments From \$295

An amazing skin resurfacing treatment that is beneficial for all skin types, in particular acne, rosacea, and thickened sun damaged skins. A process whereby softening and dissolving the skin to remove excess cell build-up and releases inflammation, impaction and destroying all bacteria it is our treatment of choice to eliminate inflammation and infection.

DMK MelanoZone 12 week skin program

Sophisticated revision of uneven skin tone

Uneven skin tone and patchiness can make us look aged and lead us to feel self-conscious about our appearance. In response, DMK has developed the brilliant new MelanoZone Treatment. It not only evens out skin tone and colour, it restores a healthy, natural glow.

Problems associated with colour complexion issues can be very complex. The MelanoZone Treatment helps to suppress and inhibit further melanin production. It is compatible for all ages, skin conditions and tones, and can be used on any area of the face or body, including smaller and more stubborn areas of discolouration.

DMK Bihaku Treatment From \$225

For a luminous complexion

The effects of ageing, stress and the environment influence skin to develop an uneven texture. It becomes coarser, pigmented and imperfections appear. The DMK Bihaku Skin Brightening Treatment is a professional program designed to help regain a brighter, more even and luminous complexion.

IPL - Intense Pulsed Light – Long Term Hair Reduction P.O.A

IPL hair removal is a highly effective treatment method and is applicable to many skin and hair types. The process is fairly simple; an applicator is targeted at a specific area of the skin and delivers energy to the hairs that protrude from it in short bursts or pulses. Enough energy from the light is absorbed by the hairs to damage the hair follicles creating detrimental conditions to hair growth.

You'll also need a minimum of 6 treatments. This is because each of the hairs on your body goes through three stages in its lifecycle, and you can only neutralise a hair in the active phase. At any one time only a maximum of 20% of the hairs on your body are in that phase, which is why you need at least 6 treatments.

DMK Alkaline Hair Removal

DMK Alkaline Hair Removal system removes hair using a unique formulation that gently dissolves hair and part of the underlying follicle and can reduce hair re-growth with continued use. It is a gentle alternative to traditional hair removal methods and can be used safely on just about every area of the body. It is particularly beneficial for people who suffer from discolouration from waxing and IPL and also ingrown hair sufferers.

From \$30

DMK Follicuzyme Ingrown Hair Treatment

Ingrown hairs are the result of blockages stopping the natural flow in the hair follicle, trapping bacteria and potentially causing infection and inflammation. The Follicuzyme Therapy dissolves the hair and accumulation of dead cell material, which releases the follicle, strengthens the skin and in turn, reduces any remaining redness, bacteria and inflammation.

From \$30

Waxing Therapy

All roller strip waxing is followed by after wax oil; a warm towel to remove stickiness and a nourishing moisturiser is applied. You can be assured the utmost in safety and hygiene as we only use the highest quality waxes and NEVER recycle wax in any of our treatments. Hot wax is used for more sensitive areas.
